

THE FUTURE OF WELFARE ADMINISTRATION

New Hampshire General Assistance Program

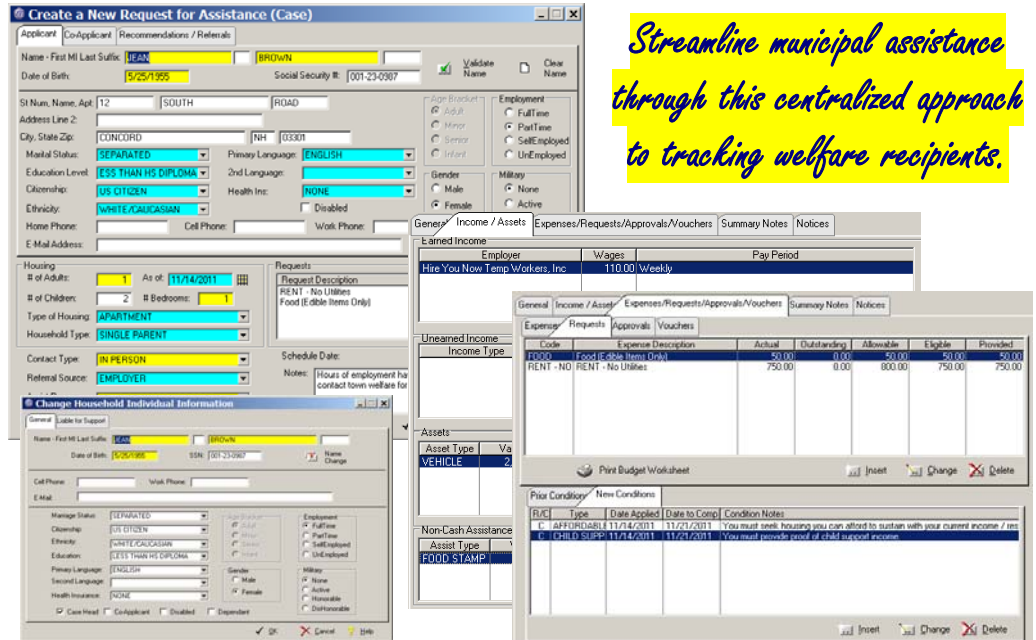

Hosted Solution for New Hampshire Municipalities

- ✓ Easy to Setup
- ✓ Easy to Use
- ✓ State of the Art
- ✓ Secure Access
- ✓ Centralized Data
- ✓ Client-Server SQL
- ✓ Web Enabled
- ✓ Affordable

Business Data Solutions, in conjunction with the New Hampshire Local Welfare Administrators Association, has developed a new system to globally track General Assistance by municipality.

Under contract with NHLWAA, BDS will be providing the first year of service to current NHLWAA members free of charge.

Complete the Letter of Intent to secure a time slot on the installation schedule.

The new NH-GAP is designed to provide a centralized state-wide database for welfare management. Information entered by each municipality will be stored in a secured central location. Each municipality's data will be tracked and secured separately, ensuring confidentiality, yet providing summary information available for analysis, by municipality, county and state-wide.

- ❖ Ability to work from any location and have access to your town's information without compromising security or having to carry the data with you?
- ❖ Standardized statistics and analysis for your municipality with ability to compare to other similar cooperating communities.
- ❖ Seamless data conversion from existing MAPS database to avoid time consuming startup.

System functionality:

- ❖ Centralized Database with remote connectivity via the Internet
- ❖ Global definition of standardized codes for reporting and State/County statistics
- ❖ Ability to monitor for duplication of services
- ❖ Standard forms/reports managed globally with local ability to modify and enhance as desired
- ❖ Export of municipal data to accommodate local reporting and analysis
- ❖ Free data conversion for existing NH MAPS users
- ❖ Data integrity and system backup provided as a part of the centralized service

Application features:

- ❖ Built-in scheduling for appointments and tracking
- ❖ Client expense and income worksheets to assist with budget generation and decision to assist
- ❖ Secure search by Name and Date of Birth
- ❖ Record of all names associated with a case, even through name changes
- ❖ Retain complete history of all requests, indefinitely by interview
- ❖ Track compliance requirements and conditions
- ❖ Unlimited notes by individual and case
- ❖ Repayment, lien and workfare tracking
- ❖ Voucher generation with vendor tracking
- ❖ Full-featured security insuring data confidentiality and security
- ❖ And much more...
